Assistant Commissioner for Patents
Washington, D.C. 20231

Sir:

The captioned application is owned by the University of Virginia Patent Foundation by virtue of an assignment from the inventors to the University of Virginia (copy enclosed) and an assignment from the University of Virginia to the University of Virginia Patent Foundation (copy enclosed). This application is a continuation of International Patent Application No: PCT/US00/03147, filed on February 8, 2000 and claims priority under 35 U.S.C. §119(e) to US Provisional Patent Application No. 60/119,254, 60/136,881 and 60/137,204, filed on February 9, 1999, June 1, 1999 and June 2, 1999, respectively.

The University of Virginia Patent Foundation is also the owner of co-pending US Application Serial Nos. 09/913,075 (filed as a national stage application of PCT/US00/03147) and 10/023,059 (filed as a continuation of International Patent Application No:

10/01/2002 AMONDAF1 00000031 500423 09925224

PCT/US00/03147) by virtue of the enclosed assignment documents. The undersigned attorney has reviewed the documents evidencing title as represented above and certifies to the best of his knowledge and belief that title is as represented.

The University of Virginia Patent Foundation hereby disclaims the terminal part of any patent granted on application no. 09/925,224 that would extend beyond the expiration date of the full statutory term, as defined in 35 U.S.C. §154 to 156 and as presently shortened by any terminal disclaimer, of any patent that issues from U.S. Application Serial No. 09/913,075 or 10/023,059.

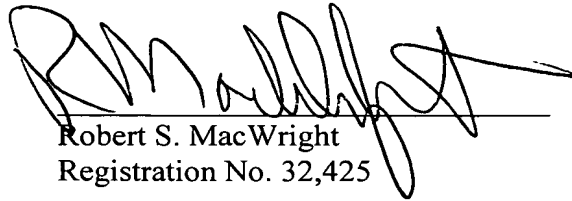

The University of Virginia Patent Foundation hereby acknowledges that any patent so granted on the above-identified application shall be enforceable only for and during such period that legal title to said patent shall be the same as legal title to U.S. Application Serial No. 09/913,075 or 10/023,059. The undersigned on behalf of the owner further agrees that this agreement is to run with any patent granted on the captioned application and is to be binding upon the grantee, its successors, and assigns.

In making the above disclaimer, the owner does not disclaim the terminal part of any patent granted on the captioned application that would extend past the expiration date of a patent issuing from either U.S. Application Serial No. 09/913,075 or 10/023,059, in the event that the patent issuing from either U.S. Application Serial No. 09/913,075 or 10/023,059 expires for failure to pay a maintenance fee, is held unenforceable, is found invalid by a court of competent jurisdiction, is statutorily disclaimed in whole, has all claims canceled by a reexamination certificate, is reissued, or is in any manner terminated prior to the expiration of its full statutory term as presently shortened by any terminal disclaimer, except for the separation of legal title stated above.

ASSIGNMENT

WHEREAS, the **University of Virginia**, 314 Madison Hall, P.O. Box 400301, Charlottesville, Virginia 22904-4301 (the "Assignor") possesses the right, title and interest for and in an invention entitled

FELBAMATE DERIVED COMPOUNDS

described in U.S. Utility Patent Application Serial No. 09/925,224 , filed August 9, 2001; and

WHEREAS, the **University of Virginia Patent Foundation**, a non-profit organization having a place of business at 1224 West Main Street, Suite 1-110, Charlottesville, Virginia 22903 (the "Assignee") is desirous of acquiring the entire right, title and interest in and to the aforesaid invention, including any tangible materials embodied in or encompassed by the invention and any trade secrets pertaining to the invention, and any improvements thereon, (the "Invention") and in and to said applications for Letters Patent thereon in the United States, its territories and possessions ("United States") and all foreign countries, including rights to claim priority, to any provisional applications, and in and to any Letters Patent of the United States or any foreign country which may be granted therefor, including any and all reissues, divisions, continuations, continuations-in-part, renewals, substitutes or extensions thereof (the "Rights");

NOW, THEREFORE, for and in consideration of the sum of One Dollar (\$1.00) and other good and valuable consideration, the receipt of which is hereby acknowledged, Assignor has sold, assigned, transferred and conveyed, and does hereby sell, assign, transfer and convey to Assignee, its successors and assigns, the entire right, title and interest in and to the aforesaid Invention and Rights, except that Assignee hereby grants back to the Assignor a royalty free non-transferrable license to make and use the Invention under the Rights for educational and research purposes, only. The aforesaid assignment includes the right in and to all income, royalties, damages and payments now or hereafter due or payable with respect to any Letters Patent which may be granted, and in and to all causes of action (either in law or in equity), and the right to sue, counterclaim, and recover for past, present and future infringement of the rights assigned or to be assigned under this Assignment, as fully and entirely as the same would have been held and enjoyed by Assignor if this sale and assignment had not been made;

AND Assignor hereby authorizes and requests the appropriate governmental officials to issue any and all such United States or foreign Letters Patent under said invention, or resulting from any of said applications thereof, to the Assignee, as the assignee of the entire right, title and interest in and to the same;

AND Assignor hereby represents, warrants and covenants that it has the full right to convey the entire interest herein assigned, that it has not executed and will not execute any instrument or assignment in conflict herewith, and that the rights assigned herein are not otherwise encumbered by any grant, license or right;

AND Assignor further covenants and agrees that Assignors will at any time upon request make, execute and deliver without further compensation, any and all other instruments in writing, including further applications, papers, affidavits, power of attorney, assignments, and other documents, and do all lawful acts and things, which, in the opinion of counsel for said Assignee, its successors and assigns, may in any country be required or necessary more effectively to secure to and vest in said Assignee, its successors and assigns the entire right, title and interest in and to said Invention and Rights hereby sold, assigned, transferred and conveyed, and that Assignor will sign any applications for reissue, division, continuation, continuation-in-part, renewal, substitute or extension of said application for Letters Patent or any resulting Letters Patent;

AND Assignor further covenants and agrees that Assignor will at any time upon request communicate to the Assignee, its successors, assigns or other legal representatives any facts relating to the aforesaid invention known to it, and will testify as to the same in any interference, litigation, mediation, arbitration or other proceeding when requested to do so.

IN WITNESS WHEREOF, said Assignor has hereunto set its hand and seal.
